

## Presentation Authoring

### REAL ESTATE ASSIGNMENT

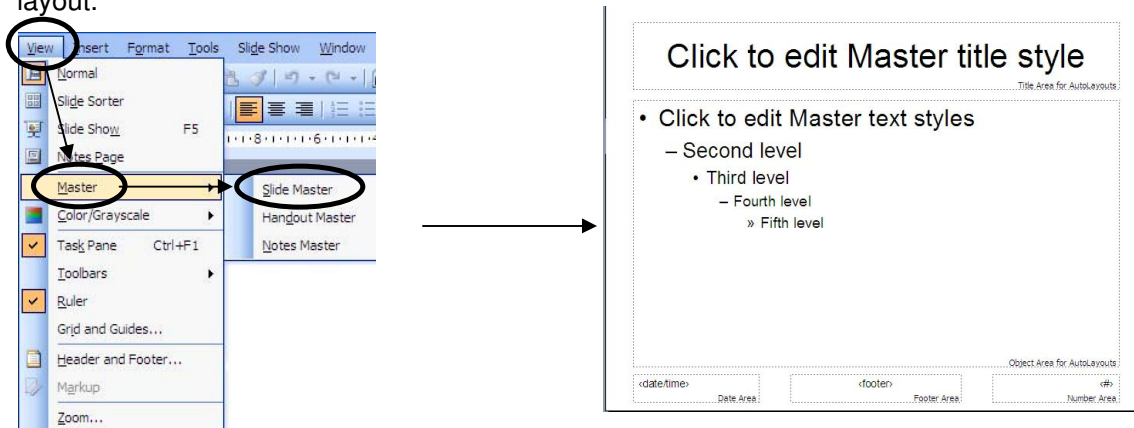

**OBJECTIVE:** You work for a real estate company. The owner's latest idea is to build a powerpoint presentation for each of a number of **Star** properties. The presentation will run on a continuous loop in the office window. You are to produce a presentation for such a property. The property that you are going to advertise is your parents' home.

**OUTLINE:** The presentation is to have a minimum of 4 slides.

- Set up a **Master Slide** with a pale background colour and a star shape in the top right corner.
- Slide 1: a large photograph of the outside of the property, a text box with the urbanisation name – not the actual address, a text box with the price.
- Slide 2: photographs of living area, kitchen, dining, TV room... with text boxes offering some brief details
- Slide 3: photographs of bedrooms, bathrooms, study/office... with text boxes offering some brief details
- Slide 4: photographs of garden area, pool, parking... again with text boxes offering some brief details.
- Presentation should loop continuously
- Presentation will contain animated objects but NO SOUND EFFECTS AT ALL.

#### TASK 1 – Setting up Master Slide.

On **Menu Bar** select **View → Master → Slide Master** and you will be given the master slide layout.

Change the background colour, add a clip art picture of a star in the top right corner. Close the master slide view.
